

OVERALL PROJECTION

This is the Eighteenth year of the Lower “8” Cycle of the world. Based on Yi-Jing, while the period between 1984 and 2043 (totalling 60 years) is “Fire-Wind Caldron”, the year 2022 is “Water-Fire Completion”.

Yi-Jing Analysis

The Yi-Jing “Water-Fire Completion” trigram is a double-meaning setting. On one hand, it means harmony and unification. That means the world would go through big changes, positively. Many problems could be resolved. On the other hand, it could mean many countries fighting like water and fire. Likely, this is a year of extremities.

Life Chart Analysis

The four columns of this year are “Water Tiger” year, “Water Tiger” month, “Earth Rat” day and “Wooden Tiger” hour. This is a special category type of life chart. It implies the world would go through big swings. Loyalties among countries would diminish. This year favours elements of Metal, Water and Wood. Negative ones are Fire and Earth. Favourable ones are financial, legal, trading, logistics, travel, networking, metals, cars, insurance, and clothing. Unfavourable ones are education, medicine, pharmaceutical and aesthetics. The Hi-Tech sector would go through big swings.

Flying-Star Analysis

This is governed by “5-Yellow”. It represents authority, but also phenomena of big swings. The trigram is “Earth Mountain Modesty”. Try to take the mid road when doing things.

In terms of regions, unfavourable countries are those in the East, West, South-West, such as Japan, USA, Europe, etc. Better ones are Australia, South-East Asia, India, Canada, Russia. China is in the center of the “5-Yellow”, which represents authority. When combined with the trigram “Earth Mountain Modesty”, China’s low-key approach in dealing with international affairs will pay off.

The following would outline an analysis of orientations, businesses, politics, economies, climate, and health, totalling 6 important factors affecting all of us.

Locations and Orientations

Central (Positive)

The controlling force is the central “5-Yellow” and “Earth-Mountain Modesty” trigram. There is one Yang and five Yins. With Yang in the middle, Yin and Yang are well balanced. This trigram carries positive energy. China, which means country in the Middle, defying bullies from Superpowers, becomes well balanced and wins respect from many countries.

On the other hand, the Middle East would continue to be volatile. There would be many wars and battles

East (Negative)

The “3-Blue” Argument Star will land in the East. The trigram is “Thunder-Sky Power of the Great”. There will be many conflicts in eastern regions. However, their relatively high cycles will still pull up their economies. Examples are China’s coastal cities, Tokyo, and New York

South-East (Positive)

This is the “4-Green” Learning Center. It favours cultural, education and Hi-Tech sectors. However, this region would also have problems with wind and flooding, especially in areas around South-East Asia, the Caribbean, Florida in USA, SE Ontario in Canada, etc. Nevertheless, economy in these areas would improve a lot from last year.

South (Positive)

This is the “9-Violet” Joy Star. Southern regions would tend to be hot. There would also be fire hazards. Volcanic activities would be plentiful in the South Pacific. Economies in those areas would advance, regardless. Typical countries include South Asia, Indonesia, Vietnam, Thailand, Malaysia, etc. Australia and Africa would tend to improve over the past year

South-West (Negative)

This is the “2-Black” Illness Center. There would be new sources of illness from the South-West regions in the world, such as Spain, Portugal, France. South California, etc. These areas greatly need rest and to rebuilding.

West (Negative)

This is the “7-Red” Receding Center. Western countries, such as USA and UK, would be into a year of instability, both politically and economically. The USA would also intervene in the internal affairs of other countries.
