**GEOMANCY: A SYSTEM OF CONSTRUCTING A PREDICTIVE FIGURE
ACCORDING TO THE RULES OF EARTH MAGIC. - Paul Ng**

A. OVERALL PROJECTION

This is the eighth year of the Lower “8” Cycle of the world. Based on I-Qing, while the period between 1984 and 2043 (totaling 60 years) is “Fire-Wind Urn”, the year 2011 is “Hill-Earth Depletion”.

I-Qing Analysis

“Water-Earth Depletion” contains 1 “Yang” and 5 “Yin’s”. The “yang” is at the top, indicating that changes are imminent. However, the world must tough out one more year of natural and human disasters. This should make people re-think about what they do and to help each other.

This I-Qing symbol indicates “mountain” on top of “earth”. That is, mountains collapsing into the earth. This can be caused by excess rain and flooding, earth quakes. The world’s economy at times would be at a stand-still. When things go to the extreme, we know the light is not too far away. This is indicated by the single “yang” on top of the six “yins”.

Life Chart Analysis

This year is composed of “metal rabbit” year, “metal tiger” month, “metal tiger” day and “water horse” hour. Two tigers are to connect to the horse. There would be plenty of cases of triangular love affairs and countries playing against each other like a triangle. This is special chart combination, making the strong stronger, and the weak weaker. This year favors the elements of “water, wood, fire” but not “earth, metal”. It would further confirm the importance of hi-tech and give a revival to the textile industry. Metals and real estate are on the volatile side.

Flying-Star Analysis

The “7-red” warring star is the controlling force of this year. This sign represents wars and instability. During this cycle, it is a receding sign. Hence most things may have to take a step

back before they can advance. Luckily, the central trigram is “Water-Mountain Harmony”. There would be plenty of happy events, including marriages. There would economic recovery especially in some central countries.

The following would outline an analysis of orientations, businesses, politics, economies, climates and health, totaling 6 important factors affecting all of us.

Locations and Orientations

Central (positive)

The controlling force is the central “Water-Mountain Harmony” trigram. Water is at the top, while mountain is at the bottom. On the positive side, it represents wealth (water contained by earth). On the negative side, there would be lots of rain & water problems, which may cause land & mud slides. China may still have to go through one more year of such disasters. However, both China and mid East would experience major economic growth.

East (negative)

This is the “5-yellow” center. This is the most severe of the severe. There would natural and human oriented disasters, such as earth quakes, financial breakdowns, political and people issues. It is best represented by Japan. While last year, Japan went through a lot of issues with cars, this year it had to tough out issues with earthquakes and political instabilities. There would be high officials stepping down. In Canada’s Toronto, there would be many accidents and crimes in its east end Scarborough.

South-East (positive)

This is the “6-white” center, representing travel, relocation, and wealth. South Asian countries would experience increased trades. There would be controversies about ownerships and rights. Immigration would be plentiful here. Chinese provinces such as Fujian and Guangdong would see their economies expand. Canada’s Ontario province also would experience economic growth. There would be caution like treading on thin ice.

South (positive)

This is governed by the “2-black” star, which represents illnesses. Many illnesses would originate from countries in the South. However, its I-Qing trigram is a positive one – a restarting process for the better of things. Indeed, most southern countries would experience better economy. Southern China would see its economy reviving and expanding.

South-West (positive)

This is the “4-green” center. There would be scholars, new discoveries, inventions from South-Western places, such as California in USA and Tibet in China. However, there would be plenty of problems to do with wind in such places.

West (half good-half bad)

This is the “9-violet” center. It is half good and half bad. On the good side, economy would improve. There would be a lot of happy events such as weddings and emigration toward the west. In China, many factories would also move to western provinces. However, the I-Qing “Fire over Water” trigram indicates maturity is still some time away. USA and European countries are merely at the point of recovering, but still quite bumpy. Another negative point is drought which may cause fire. This would be particular serious in California forests.

The west is also the “Triple Conflict” center. There would be many controversies, robberies, gun problems and legal issues. This could be a record year in USA for such problems. Its international leadership position would be questioned. Its own internal political climate would become very unstable.

North-West (very positive)

This is the “8-white” center, representing wealth. Its I-Qing trigram “Mountain Fire” hints that energy and hi-tech would be the force reviving the world economy. In China, its north-western provinces would experience good results. Many factories would move there. In Canada, Alberta would do well. In USA, Microsoft may have a technical breakthrough. However, there would also be many forest fires in north-western locations.

North (negative)

This is both the “3-blue” center, which represent controversies and arguments. Countries such as Russia and Canada may go through many political arguments. There would be lots arguments about the rights of ownership inside the North Pole circle. Green house effects causing North Pole perma ice receding, as well as enormous natural resources are the main reason for countries to fight for ownership.

North-East (very positive)

This is the “1-white” center representing romance, learning, travel, relocation and robberies. The I-Qing trigram “Water-Earth Harmony” represents peace and harmony. There would be positive development in North-Eastern China, and emigration to other countries. Canada’s Quebec is relatively calm. USA’s Boston and New York would experience economic growth and breakthroughs. There would be new major Real Development in New York.

Analysis of Businesses

Business involving “water, wood or fire” would do well. Those involving “earth or metal” had to work much harder.

Since this year's governing force is metal, real estate may have to suffer some setback and imbalance. Houses at different locations may experience extreme price fluctuations.

Although Real estate is somewhat receding, it remains a good investment. In the case of China, it would experience phenomenal growth in Beijing, Inner Mongolia, North-Eastern regions and Guangdong province. USA still suffers from its weak economy. Canada would be quite stable, especially in Greater Toronto Area. Its regions such as Markham, Richmond Hill and those in the north would have very stable development. Vaughan is particularly booming.

Energy would be among the important businesses this year. There would be new sources of energy and re-modeling of old energy sources. Nuclear energy would become safer. More emphasis would be on wind and solar energies. Energies for cars would experience big technical advances.

In the fields of electronics, there would be controversies and lawsuits, as well as acquisitions in the hi-tech sector. Those who can not catch up would experience crisis. Those worth watching would be "Apple, Google", followed by Microsoft and Hewlett Packard.

In the medical field, there may be a lot of law suits. There would be new discoveries but side-effects from long-standing drugs. There would be a movement toward natural healing. Hence, Tai Chi, qigong, yoga would become even more popular.

Food businesses would be very competitive. Many may change hands through the year. They would favor both low end and high styles. Those in the middle would suffer.

Metals would be very volatile. Those involving military use would prosper. There would be new alloys, which would lay a ground work for future car and airplane construction. There would be plenty of mining accidents.

Travel business would do well. More and more people enjoy traveling, especially in China and the Caribbean's. After a year of controversies, Hong Kong would become stricter in its rules of tour guide. South-East Asia tends to be unstable.

Textile business would do better than the past year. There would be new material and styles.

Both banking and financial sectors would be volatile. There would be huge stock swings sometimes on a daily basis. Those who target the majority of common customers would prevail and do better.

Favorable Business (Water, Wood, Fire)

- Water-oriented businesses
- Those driven by new energy sources
- Wind-related businesses, such as wind turbines
- Nuclear energy
- Electronics and computer/storage media, especially those with Nano technology

- Communications and Internets: machines would become still smaller and yet more all-encompassing
- Hi-tech securities
- Household securities
- Education
- Show business
- New building materials
- House renovations
- Food business, especially those targeting weddings
- Clothing
- Fishing
- Travel / Transportation

Unfavorable Businesses (Earth, Metal)

- Automobiles
- Airplanes
- Mining
- Real Estate
- Smugglings
- Imports & Exports

Analysis of Politics

The governing sign “7-Red”, plus the central trigram “Mountain over Earth Depletion” indicate that there would be plenty of wars and terrorist activities in the world, especially those involving the USA. Canada, on the other hand, would be quite stable. Political parties would not go through much change. The Democratic Party in USA may suffer some setbacks, while the Republicans would be rising, with most in power to be male. China’s political scene remains very stable. The efforts to defeat corruptions would be increasing, resulting in more high-ranking officials to step down. Hong Kong, on the other hand, would take the mid-of-the-road approach. The so-called democratic parties would continue to make noise about just anything, without achieving much. Taiwan’s politics would be relatively stable. There would be problems with India & African countries.

Many European countries may have to go through political instabilities. Eventually, they would see some improvement in their economies.

Mid East would continue to experience wars and terrorist activities.

Southern American countries may have many natural disasters and problems with drugs. They would continue to seek new directions.

Analysis of World Economy

The governing sign “7-Red” is a receding sign, indicating that there would be some setback in the world economy. World growth would somewhat slow down. In particular, economies in the orient would outperform that of the western world. China would continue to experience growth of about 10%.

India would also continue to growth close to 5%.

USA’s recovery would still be somewhat aided by the government, directly and indirectly, including political means. Its automobile and financial industries would continue to be the leading forces. However, there may be large number of recalls in its automobiles.

Canada’s growth would be stable, but mostly due to new immigrants from both Asia and Middle East. Its energy sector would play an important role in its economic growth.

Russia’s economic potential can not be undermined. It would co-operate with many countries, especially China, in its economic expansion.

Japan would suffer a setback because of its new natural disaster such earth quakes and volcanoes.

Europe’s economy would be buoyed by China and Russia.

Southern countries such as South America, South Africa and India would be more volatile.

Canadian Economy

- Fiscal deficits may grow at all levels of governments
- Interest rates will stay low and prime rates will fluctuate between 2-4%
- Can \$ would fluctuate between \$0.80 and \$0.90 US.
- TSX should fluctuate between 12,000 and 14,000 points
- Corporations would continue to be leaner and meaner with consolidation and centralized control
- Layoffs would slow down
- Many US companies would continue to consolidate
- Many merger activities especially in the hi-tech sector
- Competition among all businesses will be more fierce than before
- Some economic growth (1% to 3%)
- Unemployment rate improves a little (6-8%)

Analysis of World Climates

The world would tend to be a little dryer than last year. There would be more earthquake and volcano activities. Northwest and western regions would be prone to fire. Those areas would be particularly hot this year. There would be plenty of rainfall in North-Eastern and South-Eastern

regions of countries. Flooding may occur in those areas. Eastern and Central regions would be more vulnerable to natural disasters.

Analysis of World Health

Major health issues would be due to the air. Hence most would be related to the respiratory system. Eastern and Southern countries would be prone to contagious illnesses. There would be a new form of flu virus.

PROJECTION FOR THE WORLD STOCK MARKETS

- February First half negative; second half positive
- March: First half negative; second half positive
- April: First half good; second half volatile
- May Positive
- June Positive
- July Positive
- August: First half positive; second half negative
- September: First half positive; second half negative

Conclusion

When Yin (negative) goes to the end, Yang (positive) begins. When Yang ends, Yin begins. All things on earth go in such cycles. And the world goes on. By knowing the rules of nature, we can avoid many pitfalls and have better chances to succeed. Hence I shall share these predictions with my readers around the world.

E. HOROSCOPE PERSPECTIVES

RABBIT 1999 1987 1975 1963 1951 1939

Rabbit people favor people relations. They would receive a lot of help from the opposite gender. Nevertheless, this is also a “rabbit” year, which can cause the rabbit people more efforts to get anything done. They would tend to lack energy. Hence rabbit people must rest well eat properly and exercise well. There shall be no gambling or speculations.

WORK You are good to be in people-oriented businesses, including sales and entertainment. Accounting is also good for you. You should avoid risky jobs, stock markets and gambling.

WEALTH Your regular income is ok. Speculative income is quite weak. Be conservative. Your wealth can be just through savings.
