**GEOMANCY: A SYSTEM OF CONSTRUCTING A PREDICTIVE FIGURE
ACCORDING TO THE RULES OF EARTH MAGIC. - Paul Ng**

A. OVERALL PROJECTION

This is the eleventh year of the Lower “8” Cycle of the world. Based on I-Jing, while the period between 1984 and 2043 (totaling 60 years) is “Fire-Wind Urn”, the year 2014 is “Water-Thunder Storage”.

I-Jing Analysis

I-Jing “Water-Thunder Storage” contains 2 “Yang’s” and 4 “Yin’s”. “Yin” continues to dominate the world. Clouds and thunder cross one another, with rain arriving. This hints the beginning of many things, such as our infancy stage. While many countries start all over again, there would be many difficulties and testing periods.

Life Chart Analysis

This year is composed of “wooden horse” year, “fire tiger” month, “fire horse” day and “metal rabbit” hour. While year and month connect, day and month also connect. Many countries would therefore try to fight for allies. There would also be many love triangles in the society. This year’s life chart is pure fire. Its elements favor “wood, fire, earth” but not “metal or water”. It favors “real estate”, “construction”, “textile”, “electronics”, etc. There would be huge volatilities among banking, financial, metals, travel and aviation.

Flying-Star Analysis

The “4-green” star is the controlling force of this year. This is the star for learning. Its element is wood. It is good for jobs to do with learning and analysis. It also favors countries in the north and central. Countries in both east and west would be weaker. The central governing force is the “wind-mountain” trigram. The world’s economic center is still led by China. Western countries may suffer from many inter-national legal conflicts.

The following would outline an analysis of orientations, businesses, politics, economies, climates and health, totaling 6 important factors affecting all of us.

Locations and Orientations

Central (positive)

The controlling force is the central “Wind-Mountain” trigram. Wind is above mountain. On the negative side, there would be a lot of wind problems. Weather would be drier than last year. On the positive side, there would be many breakthroughs in high tech. There would also new developments in various education systems. In China, there would be breakthroughs in both space and military technology.

East (half-positive)

This is the “2-Black” illness center. There would be plenty of problems with health and food. Fortunately, most of the problems come and go quickly. One major problem country, however, is Japan. The after-effects from its previous earthquake would emerge. Even its sea products may show signs of contamination. On the bright side, its political stance seems to be milder. Other places that show economic improvements are China’s Shandong and Shanghai, Canada’s Toronto (such as Scarborough) and Washington in USA.

South-East (negative)

This is the “3-Blue” arguments center. There would be controversies, and problems with sex offence and extra-marital affairs. There would be many cases with older husbands marrying younger wives. Weather-wise, there would be many thunder storms and flooding. In Hong Kong, social unrest, arguments, family issues may continue. There would be thunderstorms and flooding in regions such as south-eastern provinces/states in China, USA. In Canada, Toronto may still have some flooding issues. There would be many finger-pointing and controversies during the upcoming elections.

South (positive)

This is the money center. In general, southern countries would do well. However, their politics would tend to become unstable. Even their weather patterns become volatile. These are represented by South Asia, Australia/New Zealand, South America and Africa.

South-West (positive)

This is the “1-White” romance center. This means harmony and unity. Countries in south-eastern regions would do well. China’s Tibet is more stable. Europe's Spain and Portugal, etc. would show improvements. However, there would be problems with water such as flooding.

West (negative)

This is the “6-White” travel center. Besides mobility, there would be plenty of legal issues, especially among western countries. Many of them had to do with money. Some well-known people may be imprisoned, particularly in USA. This may be a record year for immigration to western countries. There would be unrest in western China such as Xinjiang.

North-West (very negative)

This is the “5-yellow” center. There would be blockages in many things, plus natural disasters. In Canada, there would be a new wave of issues with the natives. Climate in Northern Europe would be very volatile. There may be some earthquakes in North-Western China.

North (positive)

This is the “9-Violet” joy center. Most things would be smooth. Relations between government and people would be in better harmony. Canada and many northern countries would do well, especially in economics. There would be plenty of happy events such as weddings. However, these places may be subject to issues with fire. The "3-conflict" center is also in the north. Hence there would be many internal conflicts in northern countries.

North-East (negative)

This is the "7-Red" receding center. North-Eastern countries would suffer from much political conflict, thus affecting their economies. In China, there would be high officials stepping down. There would be controversies between Japan and Korea. Canada's Quebec would once again cause turmoil such as sovereignty, resulting in big slides in its economy. In New York, there could be a breakout of corporate takeovers and scandals.

Analysis of Businesses

Business involving “wood, fire, earth” would do well. Those involving "metal or water" may run into trouble. Since the controlling power is "4-Green" learning, it benefits businesses to do with analysis. There would also be problems to do with patents or copyrights.

Let us examine various businesses as follows.

Real Estate

Real Estate is getting polarized. Houses in both south and north would do well. Those in the east and west sides are a bit inferior. In China, price controls are somewhat lessened. Hence there would be a small real estate boom again, especially in Southern China. USA

is positioned in the center of both legal conflicts and mobility. People there would be motivated to move around, thus stimulating real estate to revive. However, there would also be many legal cases. Canada is positioned in the "joy" center. It would continue to enjoy a mini boom in real estate. In the Toronto region, both downtown and Richmond Hill would do well. Vancouver would also show signs of revival. However, the Prairies may slow down somewhat.

Energy

The energy sector would perform better than last year. There would be new energy sources, which come with much controversy. China and Canada would co-operate on many energy items. USA would get involved in many energy-related controversies.

Electronics

This is a year of major changes in the electronics sector. Blackberry would likely change hands. Google, Microsoft, Apple, Samsung would each lead their fields. Competition would be fierce. The China market becomes super-hot.

Medical

There would be discoveries of many new drugs. Natural medicine would receive much attention. Canada would advance to legalize Chinese medicine.

Food

There would be many new varieties of food products. However, there would be food problems with eastern countries.

Metals

There would be new materials for various industries. However, metals mining are still in a low cycle. Precious metals remain very volatile. Sales of cars would continue to advance. There would, unfortunately, be many recalls by factories.

Travel

New ideas are abundant in the travel industry. There would be many travel-related accidents. Many would be due to human errors and some due to the mechanics of the vehicles.

Textile

The clothing sector is showing good signs of life. High-end products may shift to be manufactured in China or Canada. More and more low-end ones would shift to third world countries, especially Southeast Asia.

Banking and Financial

The stock market would continue its violent swings. There are many opportunities and dangerous traps. There would be scandals and legal issues, especially shown in USA.

Favorable Business (Earth, Metal, Water)

- * Education
- * Communications
- * Real Estate

Electronic

- * Smart Homes and home security
- * Energy
- * New building materials
- * House renovations
- * Food business
- * Show business

Unfavorable Businesses (Wood, Fire)

- * Automobiles
- * Financial
- * Water-oriented businesses
- * Fishing
- * Travel
- * Airplanes
- * Mining
- * Clothing
- * Imports & Export

Analysis of Politics

The governing sign is "4-Green", plus the central trigram "Water-Thunder Reserve", hints that there is still a lack of trust among countries. Southeast Asia would experience many political conflicts. This would become magnified with USA trying to get a foothold there. Middle East would continue its volatility in many countries. Civil wars would be inevitable. Although there would not be major inter-country wars, battles would continue.

Canada

Overall, Canada would fare well. Its people would continue their peaceful life. Small problems are unavoidable. There would be changes in various levels of political leadership. Quebec would try to stir up its political instability. Both Ontario and Toronto would experience some political changes.

USA

It would try to escalate its 1960-70 international policies to enter the Pacific region and sell its outdated weaponry there. Ironically, this may be record year of social problems to do with guns. Otherwise, USA would fare well economically.

China

China is to benefit by the "learning" star this year. There would be inventions and new discoveries. It advances on both fronts of technology and economic theories. Its economic strategy reaps big benefits for the country. However, there would still be plenty of natural disasters, such as earthquakes, drought and flooding. On the positive side, such disasters also help to rebuild outdated places.

Hong Kong

Hong Kong is in the argument and controversy center. Social unrest would continue. Demonstration marches would be commonplace. Most Hong Kong citizens seem to have lost their directions. There would be plenty of problems to do with domestic issues. This is also a record year for thunderstorms and typhoons.

Taiwan

Taiwan happens to be in the "illness" center this year. There would be problems to do with food and animals or birds. Luckily many problems would simply come and go. Taiwan's relationship with mainland China would continue to improve.

Japan

Japan is deep in the "illness" center. It would suffer from the after-effects of the previous earthquakes. Politically, its right and left wings become more polarized. The government would try hard to expand its military power.

South Korea

South Korea's politics would become somewhat unstable, partially due to a downward spiral in its economy. While trying to befriend USA, it does not want to upset China. This can be a tiring act.

North Korea

North Korea would be more open to the outside world. Its relation with its South counterpart would much improve.

Other Southern Countries

Countries such as India, Africa and Australia would do better economically. They enjoy this year's money center.

Other Western Countries

Many European countries would suffer from conflicts in political power and economy. There would be many issues to do with patents and copyrights. There would be changes of leadership, especially in Southern European countries.

Middle East

This would continue to be the most volatile region in the world. Leadership changes may eventually lead some degree of stability.

Russia

Russia would do well economically. It would enjoy a prosperous year.

Analysis of World Economy

The governing sign "4-Green" and its flying star sign of "Water-Thunder Reserve" encourage the world to seek improvements. Most things would need a lot of effort to achieve. Positive changes are coming.

CHINA's economic growth would shoot up to over 10%. The strategy to urbanize the country side is showing good results. Many Chinese companies would actively acquire foreign countries, especially in the areas of energy, communications and automobiles. Domestic demands would greatly improve.

Southeast Asia is the money center for this year. Most countries there would do well, especially Singapore, Vietnam and Indonesia.

JAPAN suffers from the effect of "Illness". There may be many recalls of automobiles. Luckily, it has a positive I-Ching trigram of "Earth-Sky Prosperity" that helps its economy to improve. Japanese yen would go up.

KOREA is at the "Receding Center". There may be some legal conflicts with patents. Samsung and Hyundai would continue to lead its economic advances, but also encounter new technical problems. In all, Korea still fairs better than many other countries.

INDIA is at the "Money Center". It would see improvements in both economy and exports. Its natural disasters would be lighter than last year.

USA's real estate and automobile sectors continue to lead the economy. There would be recalls. In both financial and hi-tech sectors, there would be many lawsuits. USA would enjoy much income from selling its weaponry to third-world countries.

CANADA is at the "Joy Center", helping its economy to improve. Its good relation with China also helps its economic development. There should be at a 5% economic growth.

RUSSIA's economy continues to be less affected by the rest of the world. It would continue to grow at a healthy pace.

EUROPE may suffer from many monetary issues and law suits. However, it would fare better than last year.

Central BANK interest rates would continue to stay low, world-wide.

A Special Look at the Canadian Economy

- * 1. Fiscal deficits would be under better control at all levels of governments
- * 2. Interest rates will stay low and prime rates will fluctuate between 2-4%
- * 3. Canadian \$ would continue to be a little lower than the US dollar
- * 4. TSX should fluctuate between 13,000 and 14,000 points
- * 5. There would be more centralization of power among corporations
- * 6. There would be more foreign ownerships of Canadian corporations
- * 7. The cost of communications would be lowered
- * 8. Public sector remains the major source of inflation, while the private sector remains deflated
- * 9. Economic growth would reach 5%
- * 10. Unemployment rate continues to improve (around 7%)

Analysis of World Climates

This year's governing trigram is "Water-Thunder Reserve".

Water and thunder are inter-mixed. Hence the world continues to suffer from natural disasters. There would still be plenty of earthquakes and flooding, adding to thunder storms and lightning. Most earthquakes would happen in areas such as Iran, Eastern Japan, Central and South-Western China. Even Canada's Quebec province may experience some earthquakes. USA Mid-West regions may have a record year of tornadoes. Northern countries are hotter than last year and subject to fire problems. Southern-Eastern regions have more thunder storms and flooding. Western regions are more prone to flooding and North-Western regions prone to fire, such as forest fires. Nonetheless, the overall problems would be much less than last year.

Analysis of World Health

The most common health issues this year had to do with the respiratory system. Obviously, it would be highly contagious. Most diseases would have their roots in the eastern regions.

PROJECTION FOR THE WORLD STOCK MARKETS

- February Positive
- March: Positive
- April: Positive
- May: Positive
- June: Negative, then positive
- July: Negative, then positive
- August: Negative
- September: Negative
- October: Positive
- November: Positive, then negative
