A. OVERALL PROJECTION

This is the fifteenth year of the Lower “8” Cycle of the world. Based on I-Jing, while the period between 1984 and 2043 (totaling 60 years) is “Fire-Wind Urn”, the year 2019 is “Sky-Thunder”.

I-Jing Analysis

I-Jing “Sky-Thunder” contains 3 “Yang” on top and 2 “Yin” and 1 “Yang” at the bottom. There are far more Yang than Yin. Hence the righteous force will prevail.

Life Chart Analysis

This year is composed of “Earth Boar” year, “Fire Tiger” month, “Water Monkey” day, “Fire Horse” hour. Year and month connect and conflict. Month and day are opposite. Month and hour connect. As a result, the world remains very unstable. Countries are sometimes friends and suddenly could become enemies. This year favors the elements of Metal, Water, Fire but not Wood and Earth.

This year favors elements of “Earth, Metal, Water”, but not “Fire, Wood”. Hence favorable businesses would be in the electronic, mobility and metals sectors. Hi-tech, travel, logistics and automobiles would do well. Precious metals would stay high. The clothing industry continues to suffer. Real estate would become very extreme and very much location sensitive.

Flying-Star Analysis

This is a very special year. All 9 stars return to their respective positions, indicating the world is to go through major adjustments. Asia, represented by China, is in the middle; whereas the western world, represented by USA, is on the sideline. This power shift affects the entire world in quite a long term sense.

The "8-White" star is the controlling force of this year. This is the 15th year of the 8-Cycle of the world. This star represents wealth. Its element is earth. It stands for tranquility and returning to the origin of things. There would be new orders and directions in the world.

The following would outline an analysis of orientations, businesses, politics, economies, climates and health, totaling 6 important factors affecting all of us.

B. LOCATIONS and ORIENTATIONS

The controlling force is the central "Double-Mountain" trigram. This is one of the 4 difficulty trigrams. However, there would still be natural issues such as drought and earthquakes in its South-Western regions such as Sichuan.
