## **GEOMANCY: A SYSTEM OF CONSTRUCTING A PREDICTIVE FIGURE ACCORDING TO THE RULES OF EARTH MAGIC - Paul Ng**

### **A. OVERALL PROJECTION**

---

#### **General Yearly Prediction**

In 2025, the year corresponds to the second year of the Lower Ninth Cycle. Using the I Ching hexagrams for calculation, the sixty years from 1984 to 2043 follow the "Fire-Wind Ding" hexagram. Each hexagram is divided into six lines, each line governing ten years. Thus, 2024 is the second year of the fifth line of the "Ding" hexagram, represented by the "Li" hexagram for Fire.

---

#### **I Ching Reasoning**

The "Li" hexagram represents fire. The world will experience hotter climates and more fires, with ongoing political turmoil. Conflicts between the East and the West will deepen.

---

#### **BaZi (Four Pillars) Analysis**

The year's four pillars are "Yi Si" (Wood Snake Year), "Wu Yin" (Earth Tiger Month), "Gui Mao" (Water Rabbit Day), and "Gui Hai" (Water Pig Hour). The year and month are in conflict, the year and hour clash, but the day and hour are in harmony. Thus, the year starts tough but ends well. The global situation will be turbulent initially but will stabilize. However, international relations will remain tense. Favorable elements are wood, fire, and earth, while metal and water are unfavorable. Thus, real estate, healthcare, education, internet, clothing, and wood industries will thrive. Banking, insurance, logistics, tourism, hardware, and automotive sectors may face challenges. Technological advancements, especially in AI and big data, will progress, along with robotics technology.

---

## Flying Stars of the Year

The "Two Black" illness star occupies the center, indicating a new wave of viruses. The "Li" hexagram suggests extreme heat and many fire disasters. The overall global environment will be gloomy. Geographically, the center, northeast, east, and northwest regions like the Middle East, Eastern Europe, Korea, Japan, and Northern Europe are disadvantaged. Southeast, south, southwest, west, and north regions like Southeast Asia, India, Africa, Australia, the USA, South America, and Western Europe are more favorable. Wealth is in the east but also hosts the "Three Killings" star, while speculative wealth is in the southeast. The central region will be unstable.

---

## Sector Analysis

- **Southwest (Eight White Wealth and "Shan Tian Da Chu" Hexagram): Highly Favorable**

- **Northwest (Three Blue Argument and "Lei Shui Jie" Hexagram): Slightly Unfavorable**  
The "Three Jade" star brings disputes, and the "Lei Shui Jie" hexagram suggests unstable alliances. Northern Europe will experience self-centered politics, while the northwest USA and Canada will face storms, fires, and floods.
  - **North (Seven Red and "Ze Di Cui" Hexagram): Minor Favorable**  
The "Seven Red" star indicates economic developments and policy changes, benefiting Canada's economy but bringing changes to Russian policies.
  - **Northeast (Five Yellow and "Di Lei Fu" Hexagram): Highly Unfavorable**  
The "Five Yellow" star brings disasters, but the "Di Lei Fu" hexagram suggests hidden opportunities.
