

2026 Year of the Fire Horse - Annual Forecast

By Shifu Paul Ng

This year marks the third year of the Lower Ninth Cycle, aligned with the “Emperor’s Ultimate Order” hexagram, which governs the period from 1984 to 2043—a span of sixty years under the “Fire-Wind Cauldron” hexagram. Each hexagram is divided into six lines, with each line corresponding to a ten-year period. Therefore, 2026 falls into the fifth line, third year, corresponding to the “Fire over Lake” hexagram.

**** Hexagram Interpretation ****

The “Fire over Lake” hexagram reveals a year of significant global change. Nations will witness profound shifts, and new policies will emerge unpredictably, akin to the flames rising from the lake—powerful yet unpredictable.

**** Annual Bazi Life Chart ***

The Four Pillars for this year are:

☯ Year: Bing Wu (Fire Horse)

☯ Month: Geng Yin (Metal Tiger)

☯ Day: Ji You (Earth Rooster)

☯ Hour: Bing Yin (Fire Tiger)

The convergence of the year, month, and day reveals favorable conditions for major nations to negotiate and form agreements. This alignment favors diplomacy and collaboration. The Five Elements favor “Metal, Water, and Wood”; while avoiding “Fire and Earth”. Therefore, industries like finance, banking, logistics, tourism, hardware, and automobiles will thrive.

Breakthroughs are expected in robotics, apparel manufacturing, and timber. However, sectors such as real estate, healthcare, education, and the internet may face unforeseen economic challenges.

**** Annual Flying Stars ****

The “One White” star brings romance and prosperity to the center.

Simultaneously, the “Water-Fire Harmony” hexagram suggests major breakthroughs for China’s economy, leading to its global prominence. However, global weather will experience severe fluctuations, with floods and stock market volatility.

Geographically, countries in the south, southwest, west, and northwest (such as India, Africa, Australia, the U.S., South America, and Western Europe) will face challenges. Conversely, regions in the central, north, northeast, east, and southeast (including China, Southeast Asia, Eastern Europe, Korea, Japan, and the Middle East) will see growth and stability.

**** Geographical Analysis ****

Central Region (One White with Water-Fire Harmony Hexagram): Excellent.

The “Water-Fire Harmony” hexagram signals progress after long efforts. Both politics and economics are expected to improve in China and the Middle East, with a powerful surge of energy building up, particularly in China.

East (Eight White, Right Wealth Position with Mountain-Lake Depletion Hexagram): Mixed results.

Although gains are possible, they will require significant effort, and some losses may occur before success. Eastern countries, such as China’s eastern cities and Japan, will see ups and downs, while coastal cities may face flooding and volcanic threats.

Southeast (Nine Purple, Joyful Star with Volcano-Travel Hexagram): Small success.

The “Nine Purple” star brings joy and prosperity, but expect extreme heat and fire hazards. Economies in the southeast, like Guangdong in China, the Caribbean, Miami in the U.S., and Southern Ontario in Canada, will show signs of upward movement.

South (Five Yellow, Great Disaster Star with Earth-Wind Growth Hexagram): Very bad.

The “Five Yellow” star signals natural disasters and political/economic turmoil. Expect earthquakes, floods, and social unrest in countries such as Mexico, South America, India, and Africa.

Southwest (Seven Red, Breaking Army Star with Lake-Sky Decision Hexagram): Minor misfortune.

The “Seven Red” star brings turmoil and instability, with a weak financial sector and many setbacks. Southern Europe, especially Spain, Portugal, and parts of Canada and the U.S., will experience fluctuations.

West (Three Green, Argument Star with Thunder-Earth Waiting Hexagram): Very bad.

The “Three Green” star causes disputes, especially in the West, as the U.S. leads global disagreements. These conflicts hinder progress and delay economic stability.

Northwest (Two Black, Illness Star with Earth-Water Warrior Hexagram): Very bad.

The “Two Black” star brings health crises, and the Earth-Water Warrior hexagram forewarns about instability, including wars and natural disasters. Countries in Northern Europe, as well as the U.S. and Canada’s northwest regions, will face these challenges.

North (Six White, Messenger Star with Heaven-Earth Blockage Hexagram): Unfavorable.

The “Six White” star signals a period of challenges. Canada will experience negative political and economic outcomes, particularly in managing finances. Russia will also face political instability.

Northeast (Four Green, Literature Star with Wind-Thunder Increase Hexagram): Excellent.

The “Four Green” star supports education and culture, and the Wind-Thunder Increase hexagram predicts favorable economic conditions. Areas such as Northeast China, South Korea, Japan, Quebec, and the Maritime Provinces of Canada will experience growth.

**** Industry Analysis ****

Industries related to “Metal, Water, and Wood”; will prosper this year, while “Fire and Earth” industries may struggle. The “One White” star in the center suggests financial markets, stocks, logistics, and apparel will benefit. However, real estate, healthcare, and construction industries may remain stagnant.

Real Estate: The market remains sluggish, with stronger performance in central, southern, and eastern regions. Issues persist in the west, southwest, and northwest.

China’s real estate shows signs of stabilization, particularly in cities like Shanghai and Beijing, as well as the Guangdong-Hong Kong-Macau Greater Bay Area.

In the U.S., the real estate market is strong in Florida and Texas.

Canada’s real estate is still in a downturn, but areas like Southern Ontario and the Maritimes are showing promise.
