**GEOMANCY: A SYSTEM OF CONSTRUCTING A PREDICTIVE FIGURE  
ACCORDING TO THE RULES OF EARTH MAGIC - Paul Ng**

**A. OVERALL PROJECTION**

This is the fourteenth year of the Lower “8” Cycle of the world. Based on I-Jing, while the period between 1984 and 2043 (totalling 60 years) is “Fire-Wind Urn”, the year 2017 is “Fire-Thunder”.

**I-Jing Analysis**

I-Jing “Fire-Thunder” contains 2 “Yang’s” to contain 1 “Yin” and 2 “Yin’s” on top of 1 “Yang”. It is like teeth biting on the lips. Hence it needs extra effort to get anything done. There would be resistance and oppositions. The world would tend to be hot and dry, with plenty of fire hazards and earthquakes. Floods would also be plentiful.

**Life Chart Analysis**

This year is composed of “Fire Rooster” year, “Water Tiger” month, “Metal Rooster” day, “Metal Rat” hour. The year and hour break. Day and hour also break. Year and month have a punishing conflict. The world politics and economies would have setbacks, arguments and controversies.

This year favours elements of “Metal, Water, Wood”, but not “Fire, Earth”. Hence favourable businesses tend to be in the mobility sector, such as travel, logistics and automobiles. Precious metals would appreciate. Both clothing and material sectors may have breakthroughs. There would be plenty of volatility and merger activities in the Hi Tech sector. Real Estate, construction and the education sectors may slow down a bit.

## Flying-Star Analysis

The "1-White" star is the controlling force of this year. This is the 14th year of the 8-Cycle of the world. This star represents relations. Its element is water. It represents mobility and changes. It also hints plenty of water problems in the world. Location-wise, it does not favour countries in the West, South-West, such as USA, India, Africa and South America Countries in the middle, East, South East or North-East would do better, such as China, Japan, Korea and South-East Asia.

The central governing force is the "Water-Mountain Difficulty" trigram. Yang is hidden inside the Yin. Hence it is a period of changes. Most things must start with many difficulties before they turn easier. Patience is important.

The following would outline an analysis of orientations, businesses, politics, economies, climates and health, totalling 6 important factors affecting all of us.

### **B. LOCATIONS and ORIENTATIONS**

#### Central (half positive)

The controlling force is the central "Water-Mountain Difficulty" trigram. There would be many natural disasters related to water, especially in areas such as Middle East . Earthquakes would occur mainly in Middle East and Central China, as well as Central West part of USA.

Politically, although many countries try to establish new policies and new directions, they would encounter much resistance from their people.

In particular, China may have some breakthrough policies and new directions. There would be flooding in the South, fires in South-East, wind storms in North-East, dust storms from the North and likely mining accidents in the North-West.

#### East (positive with some negativity)

This is the "8-White" Money and "Triple-Conflict" Centre. This is supposed to be a positive centre. However, it may still be in a preparation stage that requires plenty of planning before it can succeed. "Triple-Conflict" may invoke many legal conflicts, especially those involving money. It is therefore not a true positive centre. The Typical places are Shandong, Shanghai, Toronto (especially Scarborough), Washington DC, etc.

#### South-East (positive)

This is the “9-Violet” Joy Centre. There would be plenty of happy events. However, there would be issues with water and fire, especially in places such as Hong Kong. These would also affect places in South-East China, South Florida and South Ontario.

Tibet would try to raise the issue of independence again. There would be plenty of water problems and political issues in many South-Western countries.

#### West (negative)

This is the “3-Blue” Argument Centre. Most controversies in the world would be caused by interventions from western countries, especially USA and UK. Although China may have deal its problems in Xinjiang, they can easily be resolved.

#### North-West (negative)

This is the “2-Black” Illness Centre. Many new sources of illness may originate from Northern Europe. Economies in those regions may take a setback. In general, there would be fire issues in North-Western areas such as North California in USA and Alberta in Canada.

#### North (positive)

This is the “6-White” Travel Centre. There would be plenty of issues to do with immigration in Northern countries such as Canada. However, their economies would improve.
