GEOMANCY: A SYSTEM OF CONSTRUCTING A PREDICTIVE FIGURE ACCORDING TO THE RULES OF EARTH MAGIC - Paul Ng

A. OVERALL PROJECTION

This is the sixteenth year of the Lower “8” Cycle of the world. Based on I-Jing, while the period between 1984 and 2043 (totaling 60 years) is “Fire-Wind Urn”, the year 2020 is “Earth-Fire”.

I-Jing Analysis

I-Jing “Earth-Fire” contains 3 “Yin” on top and 2 “Yang” to enclose 1 “Yin”. There is more Yin than Yang. Hence there would be little trust among countries. Since “Earth-Fire” means sunset at the west, it hints western countries such as USA may hit a downfall in their economy.

Life Chart Analysis

This year is composed of “Metal rat” year, “Earth Tiger” month, “Fire Ox” day and “Earth Rooster” hour. Its day and hour connect to form metal. As a result, the world would begin with plenty of conflicts but eventually reconcile. Good elements this year are Wood, Fire and Earth; while bad ones are Metal, Water. Hence favorable ones are Hi Tech, Real Estate, Education, Entertainment, Textile and Wood. Less favorable ones are Travel, Logistics, Automobiles and Metals. There would be new directions in the Hi Tech sector. 5G would become the standard.

Flying-Star Analysis

This is a warring year. There would be a lot of turmoil in the world, before things become under control.

The “7-Red” star is the controlling force of this year. This is the 16th year of the 8-Cycle of the world. This star represents warring and instability. Its element is metal. The world would be going through further adjustments to new world order. Countries that seem to recede may advance further in the long run.

Generally speaking, countries in the South, East and North are in more trouble, such as India, Australia, South America, Africa, Japan, Canada, Russia, etc. Countries in North East, North West, South West, South East and West are doing better. Examples are China, Northern Europe, USA, UK, South East Asia, Korea, etc.

The following would outline an analysis of orientations, businesses, politics, economies, climates and health, totaling 6 important factors affecting all of us.

B. LOCATIONS and ORIENTATIONS

Central (positive)

The controlling force is the central “Lake-Mountain Harmony” trigram. This is lucky and smooth. It would win most negotiations. Wealth would improve. Typical representing country is China. Hence it would win over USA on the tariff war. Yet it would always be in a state of war-readiness, resistant to any foreign intrusion. Internal corruptions are under good control. There would be fewer natural disasters.

Middle East countries continue to be in battles. Iran is likely to leave the nuclear treaty. There are plenty of tornadoes in central USA.

East (very negative)

This is the “5-Yellow” Problem Center. It also represents authority. There are many natural disasters in eastern regions, such as Eastern China, Japan and Washington DC.

South-East (positive)

This is the “6-White” Travel Center. It means moving and mobility. There would be dangers and difficulties. Political turmoil may happen to countries in South East Asia. There would be flooding in China’s South Eastern provinces, USA’s Florida. In Canada, there would be many changes to economy and policies in Toronto, which may suffer from water issues.

South (negative)

This is the “2-Black” Illness Star, together with the “Triple Conflict” Sign. Many contagious illnesses would originate from southern countries. There would also be political instabilities. Typical regions include South Asia, such as Indonesia, Vietnam, Thailand, Malaysia, etc. Even Australia, South America and Africa may not be immune.

South-West (very positive)

This is the “4-Green” Learning Center. There would be many new discoveries and good areas to explore and learn. These would include areas such as Spain, Portugal, French

and South West China. These areas would not be as hot as the previous year but have big winds.

West (positive)

This is the "9-Violet" Joy Star. Western countries, such as USA and UK, would try to introduce many new policies. However, most would not go through. These places would be very hot and hit with many fires.

North-West (very positive)

This is the "8-White" Money Center. Northern European countries would enjoy economic stability. People there would feel more at peace. Nevertheless, there would be many heat waves and fires.

North (negative)

This is the "3-Blue" Arguments Center. Political controversies and policy arguments would be plentiful, especially in places such as Russia, Canada, etc. In Canada, there would be new rounds of problems with the natives. Both international and inter-party arguments would persist. There would be some wind storms.

North-East (positive)

This is the "1-White" Romance Center. Most countries in North East regions would tend to be milder and more peaceful, such as Korea. North Korea would be more open to the rest of the world. North Eastern USA, such as New York and Boston would see the financial market prosper. North Eastern Canada such as Quebec would see its real estate advance further.

C. ANALYSIS of BUSINESSES

Business involving "Wood, fire, earth" would do well, but not "Metal, water". With the "7-Red" warring star as the governing power this year, products to do with weaponry and defense would gain momentum.

Let us examine various businesses as follows.

Real Estate

Real Estate continues to be polarized, based on locations. Favorable regions are in the North West, North East, East, South East and South. Less favorable ones are in the Central, West, North and South West.

China's real estate would do well in areas around the Pearl River, such as Shenzhen and Guangzhou.

In USA, regions such as the Silicon Valley, Seattle and Florida would well.

In Canada, there would be problems and controversy around housing issues. However, within Greater Toronto Area, regions such as Vaughan, Markham, Scarborough, etc. would improve. Richmond Hill and northern towns would be slower but stable. Etobicoke is a bit volatile. Mississauga and other Towns in South West Ontario such as Milton, Waterloo, would be slower. Vancouver and cities in the Prairies would still be slow.

South East Asia, including Hong Kong, would continue to be very unstable.

Energy

Oil and gas prices would continue to rise. The push for electric cars would continue to move forward, especially in China.

Electronics

Electronics would go through a very competitive year. There would be much controversy. China's Huawei would go through more technological breakthroughs. Traditional companies such as IBM or its kind may start some layoffs. There would be more new kinds of electronic products, especially those targeting home life.

Medical

There would be fewer problems compared with last year. Many new drugs would come to the market. This is going to be a busy year, especially with marijuana in Canada.

Food

The market will be flooded with new food styles. BBQ and Hot Pot restaurants would really take off. More Chinese food would appear worldwide. Competition would be fierce.

Metals

Businesses to do with metals would be greatly affected by tariffs and protectionism. Gold and precious metals would see big swings.

Cars sales may suffer some regression, especially in Canada. Lower quality would cause a few rounds of recalls. There may be new problems with airplanes.

Travel

The travel sector is a bit weaker than last year. There would be fierce competition. Traveling to poor countries may experience more accidents and robberies. More travel opportunities would appear in China and Europe.

CANADA is at the "Arguments" center. Its wrongful international policies would greatly harm its economy. Fortunately, Canada is lucky country and will survive it.

RUSSIA's economy would improve because of its friendship and co-operation with China.

EUROPE may suffer from both heat and tariffs. Many countries would see their economies shrink.

As a whole, the world's economy would be going through a period of major adjustments. New forms of economy would appear. Banks' interest rates would still stay low.
